

## Market & Technology Intelligence for Process Industries

Intratec provides up-to-date and independent analyses examining production processes, as well as critical data surrounding industry-related markets. Our portfolio covers +300 products, spanning: oil, gas & refined products; petrochemicals; inorganic chemicals & fertilizers; polymers & plastics; renewable chemicals; pharmaceuticals; specialty chemicals; consumer products and metal commodities.

### +900 Reports Examining Production Processes

- Raw materials consumption; capital investment and production cost breakdowns
- Up-to-date analyses (with recent economic data)
- Professional, independent and easy-to-understand
- **Buy individually or subscribe and receive reports for a fraction of the cost**
- Simple payment options! Online purchase with credit card!

### Online Pricing Data on +150 Commodities & Utilities, across +20 countries

- Historical data since 2007 + 9 months forecasts
- Monthly time series, with monthly data updates
- Export pricing data into Excel format
- Support to answer your questions
- Available as subscription - Subscribe and get prompt access!

### Plant Cost Indexes & Location Factors covering 16 countries

- Update plant construction costs in 16 countries
- Convert plant construction costs in USA to 15 countries
- Historical data since 2000 + 9 months forecasts
- Monthly time series, with monthly data updates
- Available as subscription - Subscribe and get prompt access!

**+900 Production  
Cost Reports**

**Key Process  
Information**

**Capital & Operating  
Costs Breakdowns**

**Historical Prices  
& Forecast  
of +150 Commodities**

**Industrial Plant Costs  
in 16 Countries**

## About Intratec

In operation since 2002, Intratec is a leading provider of market and technology intelligence for process industries.

We are a group of process engineers, market researchers and cost estimators with extensive industry experience. In a nutshell, our business is about providing up-to-date and independent analyses examining production processes, as well as critical data surrounding industry-related markets. **Our portfolio covers +300 products**, spanning: oil, gas & refined products; petrochemicals; inorganic chemicals & fertilizers; polymers & plastics; renewable chemicals; pharmaceuticals; specialty chemicals; consumer products and metal commodities.

With a set of well-designed offerings, we serve a diverse group of customers from all over the world. Fortune 500 companies have a repository of reliable and easy-to-compare process economic analyses through our **reports subscription plans**, while biotech startups, local manufacturers and consultants often choose our **+900 reports** to ascertain the costs of a specific production process. Hundreds of corporate and individual subscribers to our **market data** monitor prices of +150 commodities and utilities.

Our studies and data have been used by our clients in multiple ways, such as:

- To obtain estimates of capital and operating costs of industrial plants
- To learn about the economic potential of R&D breakthroughs
- To screen and assess industrial investment options
- To monitor commodities and utilities prices around the world

## Partnership with Chemical Engineering Magazine

We pride ourselves on being the originator and editor of the Chemical Engineering Magazine's monthly "Technology Profile" column, which helps readers gain a better understanding of critical aspects of specific chemical process technologies.

## Industries We Serve

- Petrochemicals
- Polymers & Plastics
- Inorganic Chemicals
- Fertilizers
- Biomass & Renewable Chemicals
- Pharmaceuticals
- Oil, Gas & Refined Products
- Metals & Mining
- Consumer Products & Food

## Our Clients

- Chemical & Oil Companies
- Engineering & Consulting Firms
- Universities and R&D Centers
- Banking & Financial Institutions
