

# Commodity Price Database

## About Intratec Commodity Price Database

Commodity Price Database is the largest database of commodities prices. Subscribers can access prices of +200 commodities, from historical data to forecasts, in +20 countries.

+200 Commodities Covered Spanning 6 industries

Petrochemicals

Plastics & Polymers

Inorganic Chemicals

Fertilizers & Food

Oil, Gas & Derivatives

Metals & Mining

## Subscription Features

With several features, our Commodity Price Database is extensively used as reference by a diverse group of subscribers, from local manufacturers to Fortune 500 companies.

Interactive Price Charts

13-Year Price History

Price Forecasts

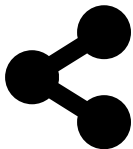

Prices in +20 Countries

Customizable Data Series

View Data Offline

Share Data with 3rd Parties

Receive Data via Email

Add Multiple Users

## Access Samples for Free

You can check limited samples of the pricing data presented for all commodities covered at no cost. To understand all database features, we suggest you see the Crude Oil Price Chart available at: <https://www.intratec.us/products/commodity-price-database#fullSample>

We offer this chart as an illustrative full sample, through which you can see the entire oil price dataset as well as try all chart functionalities, at no cost.

## Subscribing to Commodity Price Database

Intratec offers flexible subscription plans to Commodity Price Database, designed to best serve customers with different profiles.

For more information on the subscription plans, their specific features and pricing information, please visit <https://www.intratec.us/products/commodity-price-database>

## Commodity Price Database Coverage

Legends:

F = Forecast Available; IND. = Industry Sector, check the second page of this document

NAM = North America | WEU = Western Europe | NAS = North Asia

SAS = South Asia & Oceania | MDE = Middle East | CSA = Central & South America

AFR = Africa

## Could not find the data you need?

If you could not find the data you need, whether it is price data for a commodity and/or a country not covered in none of Intratec databases, please contact us filling the form available at: [www.intratec.us/help/contact-us](http://www.intratec.us/help/contact-us)

## About Intratec

In operation since 2002, Intratec is a leading provider of market and technology intelligence about process industries.

Our business is about providing up-to-date and independent analyses examining production processes, as well as critical data surrounding industry-related markets.

Our portfolio covers +900 products, offering reports and online databases that provide key information related to process industries spanning: petrochemicals; plastics & polymers; inorganic chemicals; fertilizers & food; renewables & recyclables; oil, gas & derivatives; metals & mining; pharmaceuticals; energy & utilities.

With a set of well-designed offerings, we serve a diverse group of customers. Fortune 500 companies have a repository of process economic analyses through our reports subscriptions, while startups, manufacturers and consultants often choose our +780 reports to ascertain the costs of production processes. Hundreds of corporate and individual subscribers to our market data monitor prices of +200 commodities and utilities.

## Chemical Engineering : A Long Term Partner

We pride ourselves on being the originator and editor of the Chemical

Engineering Magazine's "Technology Profile", which explains critical aspects of process technologies.

## Some of Our Customers

- ExxonMobil
- Proctor & Gamble
- Dow
- Evonik
- Shell
- Corbion
- Lyondell Basell
- Siemens
- Fluor
- Hexion
- BASF
- Adisseo
- Sumitomo Chemical
- Total
- SNC Lavallin

## Who Uses our Products

- Producers / Manufacturers
- Distributors / Logistics
- Service Providers / Consulting
- Associations / Governments
- Finance Industry / Banks
