About Intratec

In operation since 2002, Intratec is a leading provider of market and technology intelligence about process industries.

Our business is about providing up-to-date and independent analyses examining production processes, as well as critical data surrounding industry-related markets.

Our portfolio covers +900 products, offering reports and online databases that provide key information related to process industries spanning: petrochemicals; plastics & polymers; inorganic chemicals; fertilizers & food; renewables & recyclables; oil, gas & derivatives; metals & mining; pharmaceuticals; energy & utilities.

With a set of well-designed offerings, we serve a diverse group of customers. Fortune 500 companies have a repository of process economic analyses through our reports subscriptions, while startups, manufacturers and consultants often choose our +780 reports to ascertain the costs of production processes. Hundreds of corporate and individual subscribers to our market data monitor prices of +200 commodities and utilities.

Chemical Engineering : A Long Term Partner

We pride ourselves on being the originator and editor of the Chemical

Engineering Magazine's "Technology Profile", which explains critical aspects of process technologies.

Some of Our Customers

- ExxonMobil
